

Business NetPhone

The Complete Office Phone Package

All-In-One Business VoIP, Hosted PBX and IP Phone

Gain access to superior flexibility and functionality with a business NetPhone. Perfectly suited for businesses looking for an out-of-the-box solution to their office phone needs.

Enterprise Grade Features and Functions

Fully equipped with a complete set of enterprise grade hosted PBX functions. Use one or a combination of features and functions to create a complete business PBX system.

Completely Flexible and Scalable

NetPhones feature plug-and-play technology, so you can move locations with ease. They're also fully scalable, start with one NetPhone and add more as your business grows.

Included Calls and Australian Landline Number

BusinessCo NetPhones come with a multi-channel business SIP trunk, allowing for multiple concurrent calls. Also included are local, national and mobile calls together with an Australian landline number.

AUS Local, National and Mobile Calls Included plus Choice IP Phones or SoftPhone to Suit Your Business Requirements

NetPhone NETBIZ - Yealink T53W IP Desk Phone - built-in Bluetooth and Dual Band WiFi.

NetPhone NETLITE - Yealink W76P Cordless IP Phone - high performance IP cordless phone system.

NetPhone NETZERO+ - UCOM SoftPhone App - multi-device pbx app

Perfect Solution for Small Office Phone Requirements

NetPhones are totally portable and come with flexibility unmatched by traditional phone services. They come with total PBX functionality and a complete range of call handling and call management functions. And that makes them a perfect office phone solution for many requirements.

Home Office

The ideal home office phone that delivers full business PBX functionality and utilises your existing broadband service. And a Business NetPhone has features and functions that mobile phones simply can not match.

Small Business PBX

Business NetPhones are a very cost effective way of delivering a fully functional PBX system into any small business operation. Offering a high degree of flexibility and ready to be scaled to suit your business needs.

Remote Office

Whether its a temporary site or a permanent satellite office, a NetPhone is the ideal solution to deliver office phone facilities without having to install a PBX system. Being completely portable, simply unplug the IP phone and relocate anytime.

Enterprise-Grade Features and Functions

The BusinessCo NetPhone comes complete with a multi-channel SIP trunk and enterprise grade hosted PBX functions, both delivering the ultimate in business IP telephony.
